## Career Objective:

Innovative QA Lead with 9+ years of experience driving automation efficiency and improving product quality across banking, e-commerce, and mobility domains.

## Summary:

My experience spans across following work profiles:

- Collaborate with other development teams, database administrators, system analysts and integration QA to keep the automation suite up-to-date and ensure the product passes smoke, sanity, and regression tests.
- 9+ years of experience in QA, with deep expertise in automation, API Testing, and mobile App Testing
- Proficient in Selenium, Appium, Java, TestNG, Cucumber, Rest Assured, Postman, JIRA.
- Experienced in Agile environments, test planning, team leadership and end-to-end software quality processes.
- Strong background in BFSI, e-commerce and product-based platform, with experience across US banking, Oil & gas, and global enterprise systems.

## Key Skills:

Selenium | Appium | Java | TestNG | API Testing | Jenkins | Git | JIRA | Postman | CI/CD | Agile | Cucumber | BDD | Rest Assured API Automation | MySQL

## Professional Experience:

**Yabx, Comviva Technology**
**Senior Technical Lead QA, May 2023- Present**

- Led test case preparation, system testing, test planning, and regression testing.
- Led AIO JIRA plugin integration to streamline test case repositories and streamline software quality process.
- Led user story planning and creation for team and deployment activity.
- Developed automation framework creation and reducing execution time by 40%.

**OLX Autos – J2W**
**Senior QA Engineer, Sep 2021- Apr 2023**

- Led automation initiatives, reducing regression testing time by **60%**.
- Conducted comprehensive **mobile application testing** (Android & iOS) for OLX Autos.
- Validated **Back Ops and Admin platforms**, ensuring seamless integration.
- Developed and optimized **Selenium & Appium automation scripts**, enhancing test coverage.

**Editorialist YX**
**Senior QA Engineer, Feb 2021- Sep 2021**

- Developed an **end-to-end test automation framework**, reducing manual testing by **70%**.
- Conducted mobile browser testing and **WordPress plugin validation**.
- Automated data migration testing for **1M+ products** using Linux & Elasticsearch.

**Infosys Ltd.**
**Test Analyst, May 2019- Jan 2021**

## Projects:
- Prudential (Sep 2020-Jan 2021)
- ASPL Insurance (Aug 2019-Aug 2020)

**Accountabilities:**
- Test case preparation, System testing, and Regression testing
- Defect tracking with the in-house bug-logging system and JIRA
- Automated API and UI test cases for **US insurance platforms**, ensuring 99% accuracy.
- Led **cross-browser and mobile app testing**, ensuring consistent user experiences.
- Utilized **JIRA and custom bug-tracking tools** for defect tracking and resolution.

**Accenture Solution Pvt. Ltd.**
**Test Analyst, Jan 2016- May 2019**

**Projects:**
- Affinity SME Product Engineering (Jan 2019 – May 2019)
- Schlumberger Mobile App Automation (Apr 2018 – Dec 2018)
